

I Carmel Dillon, am commenting to state that "I listen to air1 radio station." I am encouraged by the positive messages in their programming. I believe my community is a better place to be as a result of air1.

I understand that some changes are being considered that could effect the current F.C.C. regulations in my area. It is my understanding that new (LPFM)LOW POWER FM Translators "MAY" be allowed priority over the current FM translators that allow air1 to be heard in my area. Please do "not" allow this change to take place. I hope there is a better solution to meet the needs of all the interested parties. Please represent me, as a U.S. citizen, and the other citizens that may loose thier favorite stations due to a change in the current system. Please so not allow the LPFM.

Thank You for considering my concern,
Carmel Dillon 10-25-04
